Management's Responsibility

To the Members of Community Futures Wood Buffalo:

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian accounting standards for not-for-profit organizations and ensuring that all information in the annual performance report is consistent with the statements. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors is composed entirely of Directors who are neither management nor employees of the Organization. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual performance report. The Board fulfills these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Board is also responsible for recommending the appointment of the Organization's external auditors.

MNP LLP is appointed by the members to audit the financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Board and management to discuss their audit findings.

Community Futures Wood Buffalo
Notes to the Financial Statements
For the year ended March 31, 2021

1. Incorporation and nature of the organization

Community Futures Wood Buffalo (the "Organization") was incorporated under the authority of the Business Corporations Act of Alberta as a not-for-profit organization and is exempt from income taxes under Section 149 of the Income Tax Act.

The Organization provides a wide range of small business services and business management tools including access to loans and other financial services that small businesses may otherwise be unable to obtain from other financial institutions. The Organization also runs specialized business programs and actively works with community and business leaders to foster rural economic growth.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations set out in Part III of the CPA Canada Handbook - Accounting, as issued by the Accounting Standards Board in Canada using the following significant accounting policies:

Fund accounting

The Organization follows the restricted fund method of accounting for contributions, and maintains three funds: the General Fund, the Loan Investment Fund and the Capital Fund.

The General Fund reports the Organization's accounts for the operating costs and general revenues. This fund reports unrestricted resources and restricted operating grants.

The Loan Investment Fund reports the Organization's restricted resources that are to be used for assistance to small businesses and entrepreneurs in the form of loans and loan guarantees and includes the following:

The WD Conditionally Repayable EDP Fund reports the Organization's resources provided to businesses owned and operated by disabled persons. The WD Non-repayable Investment Fund reports the Organization's resources provided to businesses through its non-repayable funding. The WD Conditionally Repayable Investment Fund reports the Organization's resources provided to businesses through its repayable funding. The Loan Investment Fund - Wood Buffalo Recovery Loan Partnership Program ("WBRLPP"), reports the Organization's resources provided to businesses primarily through its funding provided by Regional Municipality of Wood Buffalo ("RMWB"). The WD RRRF Fund reports the Organization's resources provided to businesses as part of the Regional Relief and Recovery Fund program.

The Capital Fund reports all contributions and expenditures relating to capital assets.

The Organization is restricted in the types of loans that can be made according to its agreements with Western Economic Diversification Canada ("WD"), Community Futures Network of Alberta ("CFNA"), and RMWB.

Revenue recognition

The Organization uses the restricted fund method of accounting for contributions. Restricted contributions related to specific fund are recognized as revenue of the appropriate fund in the year in year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Restricted contributions for which no corresponding restricted fund is presented are recognized as revenue of the General Fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue of the General Fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Unrestricted investment income is recognized as revenue of the General Fund when earned.

Contributed materials and services

Contributions of materials and services are recognized both as contributions and expenses in the statement of operations when a fair value can be reasonably estimated and when the materials and services are used in the normal course of the Organization's operations and would otherwise have been purchased. During the year, \$nil (2020 - \$nil) contributions of materials and services were recognized.

Cash and cash equivalents

Cash and cash equivalents include balances with banks, cash on hand and highly liquid marketable securities with maturities less than three months. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Community Futures Wood Buffalo
Notes to the Financial Statements
For the year ended March 31, 2021

2. **Significant accounting policies** *(Continued from previous page)*

Marketable securities

Marketable securities with prices quoted in an active market are measured at fair value while those that are not quoted in an active market are measured at cost less impairment.

Loans receivable

Loans are initially recorded at fair value and subsequently measured at their amortized cost less impairment. Amortized cost is calculated as the loans' principal amount plus unamortized loan administration fees less any allowance for anticipated losses. Interest revenue is recorded on the accrual basis using the effective interest method. Loan administration fees are amortized over the term of the loan using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the carrying amount of the financial asset.

Capital assets

Purchased capital assets are recorded at cost. Contributed capital assets are recorded at fair value at the date of contribution if fair value can be reasonably determined.

Amortization is provided using the following methods at rates intended to amortize the cost of assets over their estimated useful lives.

	Method	Rate
Computer equipment	declining balance	30 %
Computer software	straight-line	5 years
Furniture and fixtures	declining balance	20 %
Leasehold improvements	straight-line	term of lease

Long-lived assets

Long-lived assets consist of capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Organization writes down long-lived assets held for use when conditions indicate that the asset no longer contributes to the Organization's ability to provide goods and services. The assets are also written-down when the value of future economic benefits or service potential associated with the asset is less than its net carrying amount. When the Organization determines that a long-lived asset is impaired, its carrying amount is written down to the asset's fair value.

Measurement uncertainty (use of estimates)

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period.

Accounts receivable and loans receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of capital assets.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in the statement of operations in the periods in which they become known.
